To help the government fight the funding of terrorism and money laundering activities, Federal law requires all financial institutions to obtain, verify, and record information that identifies each business customer opening an account.

What this means for you: When you open a business account, we will ask for the name, address, and other information that will allow us to identify the business. To verify this information, we may obtain reports from third parties, such as credit reporting agencies. We may also ask to see organization documents for your business.
